Height Adjustable Desk/Table Products
E60PQ-140003/041/PQ

Ergonomists recommend movement throughout the day to address the stress and strain of intense computing activity.

Today's approach to workplace health is all about movement. Height-adjustable tables make the workplace a more health-conscious environment. These worksurfaces deliver a complete range of ergonomic postural benefits by allowing employees to sit or stand at their whim without disturbing others, maximizing comfort and productivity.

Steelcase's height-adjustable desks support the physiology and biology of workers. In any workplace, the bottom line is the health and wellbeing of its workers. A health-conscious workplace protects the company's most significant investment and ensures the greatest productivity, efficiency, and innovation possible.

Airtouch by Steelcase

Countless studies show that people are healthier and more productive when they can change postures in their workspaces. The innovative Airtouch® lift-assist mechanism gives workers the ability to adjust their worksurface height quickly, quietly and effortlessly—without the need for electricity—while encouraging frequent workstyle transitions.
