Height-adjustable Worksurfaces
category overview

Steelcase

Change is Good

Research has shown that having a palette of posture can alleviate fatigue, help avoid chronic workplace injuries and increase wellbeing and productivity. With height-adjustable workspaces, employees can quickly and easily adjust their worksurface height, giving them the ability to change their posture efficiently without interrupting their busy work lives.

IM#: 14-0001552

SERIES 3

Series 3 seated-height adjustability eliminates the need to modify fixed-height worksurfaces, helping organizations react to change while reducing facility costs. The crank-based Series 3 can be adjusted from 22" to 34" to fit individual needs. Load-bearing capacity is 220 lbs.

IM#: 14-0001558

SERIES 5

Series 5, with sit-to-stand height-adjustability and simple up/down electronic push-button control, allows workers to adjust their worksurface from 25½" to 52", offering a range of sitting or standing heights. Load-bearing capacity is 195 lbs. (2-leg and 3-leg).

IM#: 14-0001562

SERIES 7

Enhanced sit-to-stand height-adjustability with controller options (3-preset, 3-preset with digital display or flush-mounted up/down button) allow individuals to electronically adjust their worksurface to a new or preprogrammed height, ranging from 24¼" to 52". Load-bearing capacity is 295 lbs. (2-leg) or 458 lbs. (3-leg).

IM#: 14-0001548

AIRTOUCH

Airtouch® can be easily adjusted to any height, from seated to standing and back again, without electricity. Simply set the weight load gauge, then use the adjustment paddle to raise and lower the worksurface. Load-bearing capacity is 150 lbs.

WALKSTATION

A fully integrated combination of a Series 7 height-adjustable worksurface with an exclusively engineered, low-speed commercial-grade treadmill, the Walkstation™ incorporates low-impact physical activity into the workday for individuals or entire departments.

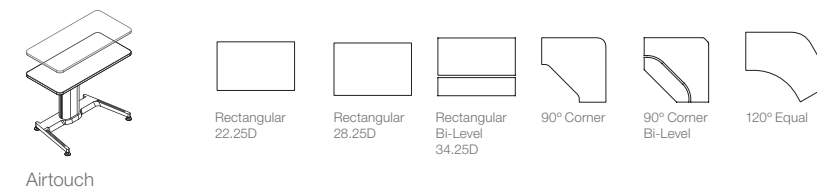

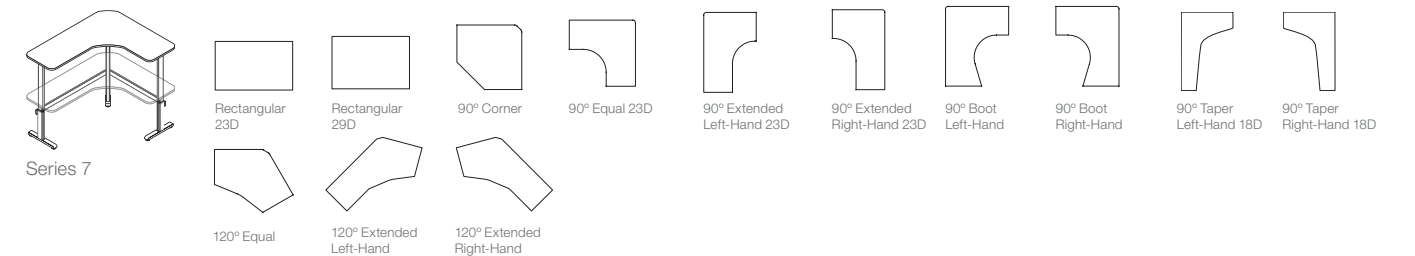

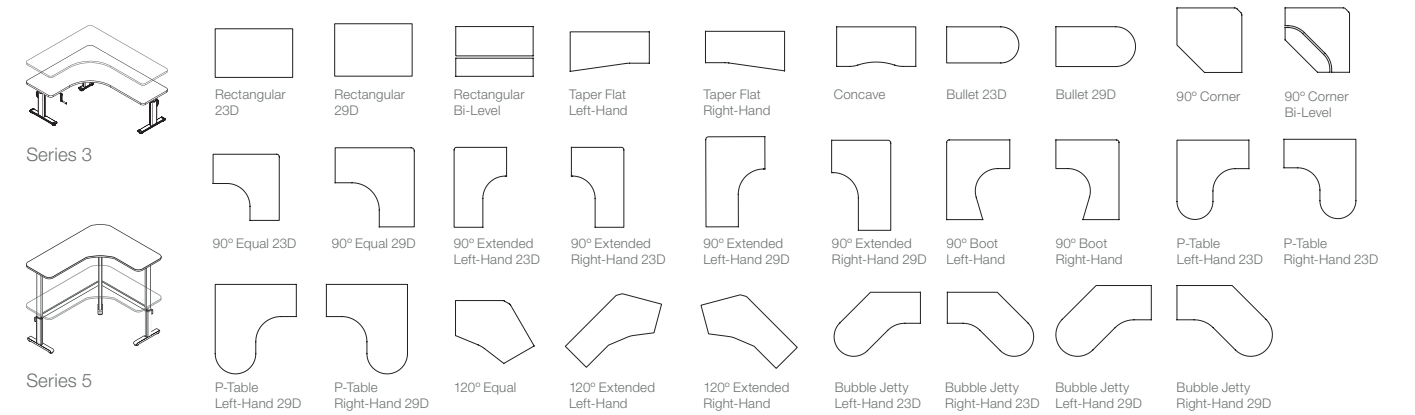

IM#: 13-0000061

SIT-TO-WALKSTATION

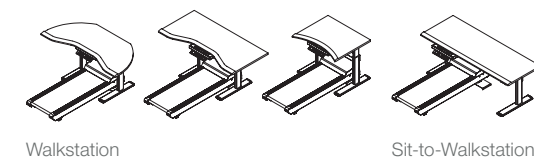

Ideal for a personal workspace, the Sit-to-Walkstation incorporates all the technology of the Walkstation with a larger worksurface and seating capability designed to support multiple postures for individual use.

SUSTAINABILITY

At its heart, sustainability at Steelcase is about people. It's about creating and supporting the economic, environmental and social conditions that allow people and communities to reach their full potential.

Research and insights direct our path. It's not only about creating goods, it's about creating good. It's not only about creating value, it's about living our values. It's not just about reducing our footprint, it's about expanding our reach. It's about creating lasting and meaningful change to enable the long-term wellbeing of current and future generations.

Innovative products and solutions result. In the development of our products, we work to consider each stage of the life cycle: from materials extraction, production, transport, use and reuse, until the end of its life. We demonstrate performance through third-party verified certifications and voluntary product declarations.

Steelcase's sustainability promises, actions, and results are communicated in an annual Corporate Sustainability Report.
